
Babies with Glasses - Now in 11 Languages!

Posted by jrfuda - 2007/10/20 02:12

This thread discusses the Content article: Babies with Glasses - Now in 11 Languages!

Babies with Glasses is pleased to announce it is now available in 11 languages! We hope this will allow us to reach more people. Special thanks to MoonRay at JoomlaSpan for providing the FREE JTransPro component to allow for seamless translation of the site! If you have a Joomla-based site, I highly recommend JoomlaSpan's JTransPro!

If you want to see how it works, just click one of the flag icons below "choose your language." It's pretty neat!

Let us know if you have any issues with the translation component, or just what you think of it!
